

## Software for the Warehouse and Head Office of a chain of retail Optical Stores

*The complete POS management system for multiple locations*

### Vision<sup>+</sup> Warehouse **\$5,999.<sup>00</sup>**

**This includes:**

- One day on-site training
- **NO Travel Charges**  
IF you are within a 3 hr. drive from a major city
- **NO Annual Support Fees**
- Vision<sup>+</sup> POS Software **for up to 10 stores**  
(value \$499 each)
- Updates are available twice a year  
(Optional fee is \$325 per year)

### Capabilities

- Maintain a company wide inventory for the head office & each store.
- Centralize all individual sales from each store.
- Let the head office Invoice each store for the products they receive.
- Maintain Accounts Receivables for those Invoices. (eg. print a monthly statement per store.)
- Works seamlessly with Optical and/or Optometric POS software.
- Print Bar coded labels for each product
- Print a Picking List for the warehouse
- Print a Packing Slip for the warehouse
- Distribute electronically a company wide price list.
- Create & track purchase orders
- Automatic replenishment, based upon a re-order point
- Future inventory requirements and stock forecasting
- Picking by Aisle and Bin locations
- Comprehensive Inventory analysis. (e.g. Board Usage, ABC analysis, recent sales report and slow-movers analysis.)

## WAREHOUSE

The complete POS management system for multiple retail Optical store locations.

## Vision<sup>+</sup> Warehouse

### Software for a chain of retail Optical Stores

A complete system that lets you use the computer to run as many aspects of the head office, the warehouse and each store as you wish.

It gives you full inventory control, detailed management reporting and accounts

receivable for the head office and its warehouse. You can maintain a centralized inventory of all the stores and track individual sales by store.

Additionally you can centralize your marketing efforts to all customers in all of your stores.

This includes – **for FREE** – our VISION<sup>+</sup> POS software for up to 10 stores.
